OmniView Series Network Camera

Embrace the Large Scene

Why UNV OmniView Cameras?

In the field of security, panoramic cameras have some unique advantages compared to normal cameras, making them more suitable for specific security needs.

Here are the advantages of UNV OmniView cameras compared to regular cameras:

Panoramic Field of View

Panoramic cameras provide a wider field of view, capturing images of the entire area and reducing blind spots.

High-Resolution Images

Some panoramic cameras can provide high-resolution panoramic images, allowing users to monitor areas with greater clarity.

Simplified Management

Due to the ultra-wide angle feature of panoramic cameras, we can cover the same large scene with a smaller number of panoramic cameras.

Smart Analytics

UNV panoramic cameras integrated smart analytics features such as Smart Intrusion Prevention, Heat Map, etc..
